

REMARKS

Applicant has revised the specification to insert a reference to Figs. 24-26 in the Brief Description of the Drawings that was inadvertently omitted when the original application was filed. Since the nature of Figs. 24-26 is apparent from the remainder of the application as filed, especially page 21 of the specification, this amendment does not introduce new matter and should be entered.

Early action allowing claims 1-19 is solicited.

In the event that the transmittal letter is separated from this document and the Patent and Trademark Office determines that an extension and/or other relief is required, applicant petitions for any required relief including extensions of time and authorizes the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to **Deposit Account No. 03-1952** referencing docket no. 424662010300.

Respectfully submitted,
